

# HONORING ROSEMARIE J. SORCE

Rosemarie J. Sorce (or Ro, as she is affectionately known) is love, leadership and generosity personified. Throughout her many years of service to Hackensack Meridian *Health*, Ro has contributed so much to the organization, especially Hackensack University Medical Center and the surrounding community where she has created an extraordinary legacy.

Prior to making history as the first female chair of the Hackensack Meridian *Health* Hospitals Corporation Board, Ro served in many capacities and leadership roles to advance health care throughout New Jersey. She is a member of the Hackensack University Medical Center Foundation Board of Trustees, and has greatly supported Hackensack Meridian's two children's

hospitals, Joseph M. Sanzari Children's Hospital and K. Hovnanian Children's Hospital, and helped shape the network's Care Transformation Services. Her work with Hackensack's Auxiliary and leadership as the chair of the hospital's Pastoral Care Department has enriched so many lives.

Ro's selflessness knows no bounds. In addition to her service on the many boards and committees of Hackensack Meridian *Health*, Ro also supports a variety of philanthropic initiatives and programs, recently making a significant, transformational gift to the organization. She gives generously to the network's causes and lends her support at Hackensack Meridian *Health* Foundation's events, where she delights attendees with her sparkling personality and outfits that occasionally match the event's theme.

We could not be more delighted to honor Rosemarie Sorce for her tremendous contributions to Hackensack Meridian *Health* and we are forever indebted to her for her leadership and dedication.
